

## STEP 5

### Quiz

It is time to take a quiz to see how much you have learned throughout this activity. Click on **Lessons, Activity 5, Quiz 4**. Be sure to read each question carefully before answering. When you are finished with the quiz, go on to the next step.

## STEP 6

### Summarize

Click the **Lessons** button, **Activity 5**, then **Journal**. Place the floppy disk containing your first journal entry into Drive A and, under the File menu, select Open. Select A in the Drives field and double-click your journal file.

Leave a couple of spaces after the last entry.

In your journal, various locations throughout the world still do not have electricity like more established countries do. Do you think solar energy will make it easier for these countries to gain access to electricity? Why or why not?

When you've finished the entry, click Save in the File menu, then exit the program.

## STEP 7

### Re-organize Re-inventory

It is time to clean up the work area. Remember, you are responsible for the module area. This task will be completed using Media Cruiser.

Click **Lessons, Activity 5**, then **Re-inventory**. Once you've located the various items on the list, click Yes. If you are unable to find an item, click No. Report any problems such as missing or damaged items to the instructor. You will also be required to document the items in the Inventory Journal that will appear after you click No. When you are finished, click **Score It**, then click Media Cruiser's **Exit** button and log out.
