

STEP 4

Read this

Locate the *Bio-Related Technology* text and read pages 46-54. In this reading you will learn how personal design can make a worker more productive. This information is important because it connects the design between the human body and machines, tools, devices, and other elements of the physical world. Everyone is different in one way or the other. We all have assorted interests and needs and this reading will help you better understand the various types of human factor design.

STEP 5

Quiz

Click the **Lessons** button, **Activity 4**, then **Quiz 2**, and complete the quiz by choosing the correct answers and then clicking Score It to register your answers.

STEP 6

Summarize

Place a disk in the floppy drive, then click the **Lessons** button, **Activity 4**, then **Journal**. Click the File menu, select Open, then double-click your journal file.

Leave a couple of spaces after the last entry.

In your journal, name three products you use on a daily basis that were designed with ergonomics in mind. What makes these products ergonomic? Do these features work for you or do they need to be modified? Explain your answers.

When you've finished the entry, click Save in the File menu, then exit the program.

STEP 7

Reorganize

It is time to clean up. Remember, you are responsible for the module area, so be sure to leave it neat and clean for the next pair of students.
