

STEP 9

Quiz

Click **Lessons**, **Activity 3**, then **Quiz 3**, and complete the quiz by choosing the correct answers and then clicking Score It to register your answers. You will need a piece of paper to write down the results as you work through the experiments.

STEP 10

Summarize

Click **Lessons**, **Activity 3**, then **Journal**. Click File, select Open, then locate and double-click your journal file.

Leave a couple of blank lines after the last entry.

In your journal, list something else, other than a multi-speed bicycle, that might use a compound gear train. For what purpose would this item use a compound gear train? Explain your answers.

When you've finished the entry, open the File menu, click Save, and then exit the program.

STEP 11

Reorganize

It is time to clean up. Remember, you are responsible for the module area, so be sure to leave it neat.
